This webinar aims to highlight the role of women in science, as seen through the eyes of young emerging women scholars: the career they dream of and the path they envisage to reach their goals, with objectives

- To emphasize the importance of women in science for a nation becoming self-reliant
- To motivate the young women to become self-reliant
- To impart the importance of being a self-reliant women in science stream

Young women researchers speak their minds and share their views on their visions and aspirations to contribute to Aatmanirbhar Bharat!

Conducted by: Atya Kapley, Kusumita Arora, Ramya Sanam, Asifa Qureshi, Anjana Dogra
